TC Metro Growers Network digs into every grower’s favorite subject …

Compost!

Saturday, September 25th – 10:00 to Noon
Urban Ventures Greenway Gardens
2841 S. 5th Ave., Minneapolis, MN 55408
South 5th Ave at the Greenway - Parking across the street

A FREE event, please register HERE for a head count.
... and please, get vaccinated if you are not already. Bring a good mask.

Composting is as old as agriculture. Older than that of course, Mother Nature’s version of composting is why we have soil at all! Soil is alive. Soil is biology, not geology. With composting we mimic nature at our gardens and farms. We recycle nutrients. We want productive soils for growing health-full food! Come over to Urban Ventures along the Greenway to tour their composting operations. Along with our hosts, Karl Hakanson and veteran composters Russ Henry and Chesney Engquist of Minnehaha Falls Landscaping will engage the Network in a discussion on creating quality compost for soil quality …

✓ What you need to make compost - materials, infrastructure, tools
✓ How to build a good compost pile
✓ How to manage the pile to make high quality compost
✓ How to use finished compost

Do you compost? Does your community garden compost? Does it not turn out like it should? Are you a successful composter? How do you do it?
